wallacedc@cdmsmith.com

The Southwest Florida Branch has continued our tradition of holding monthly breakfast meetings throughout the past quarter.

In May, Michael Cook, the Assistant District Manager for Lehigh Acres Municipal Services Improvement District conducted a presentation on Building, Operating & Maintaining a Storm Water System with over 311 miles of Canals in Southwest Florida. June included a presentation by Jon Mills, the Innovation Lead from WithersRavenel, and he presented on the Consequences of Underfunding the CIP, Lifecycle Planning, and Service Levels. Both presentations included PDH credits to those in attendance.

In addition to the monthly breakfast meetings, we now have a Young Professionals Representative which is now working on creating upcoming events for young professional in the community.

Furthermore, our branch has remained committed to community service by participating in the Adopt-a-Road program, regularly picking up litter along Daniels Parkway.

This concludes the report for the Southwest Florida Branch for the preceding quarter.

Respectfully submitted,

Leah Holmes, P.E.
District #9 Representative
